Making Your Room Homey

Yes, we realize that you are moving into a small room, but don't give up hope! There are plenty of ways to get creative with your room and make it feel like home!

ILLUMINATION

Bring something to soften the harshness of the overhead fluorescent lights. In addition to desk lamps, a floor lamp would do the trick.

FURNITURE

Your room already comes furnished with a desk, desk chair, bed, dresser and closet. Main, Finley, Frazier, and Ross have bunkable beds. Consider storage containers if you aren't planning to bunk the beds. If you are planning to bring extra furniture, think small and think vertical!

WALLS

You can add some quick and inexpensive color to walls by hanging posters. Most rooms also have a cork strip around the perimeter that can be used. Think of new ways to hang things, many of our students have used blue painters tape. Remember that you can only use white or gray poster putty to hang items on the walls.

ACCESSORIES

Some things that you don't want to leave at home are those little details that can really make your room feel like home. A favorite picture, stuffed animal or clock might do the trick.

CLUTTER

Try not to bring everything you own. Think of creative ways to store your things in an organized way. Try buying storage compartments that can be stacked easily in the closet.
